Bibliographia Zoologiae Et Geologiae: Volume 4-Louis Agassiz 2013-07-04
This four-volume catalogue, published 1848-54, provides an extensive list of
the zoological and geological literature available at the time.

The Invasion of the Crimea: Vol. IV [Sixth Edition]-Alexander W. Kinglake
2017-01-23 This is the sixth edition of the fourth volume in a series of nine
that was originally published in 1877, and which together provide a
thoroughly comprehensive operational history of the Crimean War to June
1855, including all the early battles and the first attack on the Redan.

Alexander William Kinglake (1809-1891) visited the Crimea in 1854 as a
civilian and was present at the battle of the Alma (20 Sep 1854). The British
Commander-in-Charge, Lord Raglan, suggested to Kinglake that he write a
history of the Crimean War and made available all his private papers. The
result is this monumental and elaborate piece of work, which tells the story

of the war from its very origins right through to the death of Raglan on 28
June 1855, at which point the conflict still had another eight months to run
until its conclusion at the Treaty of Paris on 28 February 1856... This
FOURTH volume takes a detailed look at SEBASTOPOL AT BAY. Richly
illustrated throughout with useful maps and diagrams.

For Peace and Money-Jennifer Siegel 2014-11-03 From the late imperial
period until 1922, the British and French made private and government
loans to Russia, making it the foremost international debtor country in pre-
World War I Europe. To finance the modernization of industry, the
construction of public works projects, the building of railroads, and the
development of the military-industrial complex, Russia's ministers of
finance, municipal leaders, and nascent manufacturing class turned, time
and time again, to foreign capital. From the forging of the Franco-Russian
alliance onwards, Russia's needs were met, first and foremost, by France
and Great Britain, its allies, and diplomatic partners in the developing Triple
Entente. Russia's continued access to those ready lenders ensured that the
empire of the Tsars would not be tempted away from its alliance and
entente partners. This web of financial and political interdependence
affected both foreign policy and domestic society in all three countries. The
Russian state was so heavily indebted to its western creditors, rendering
those western economies almost prisoners to this debt, that the debtor
nation in many ways had the upper hand; the Russian government at times
was actually able to dictate policy to its French and British counterparts.
Those nations' investing classes-which, in France in particular, spanned not

only the upper classes but the middle, rentier class, as well-had such a vast proportion of their savings wrapped up in Russian bonds that any default would have been catastrophic for their own economies. That default came not long after the Bolshevik Revolution brought to power a government who felt no responsibility, whatsoever, for the debts accrued by the tsars for the purpose of oppressing Russia's workers and peasants. The ensuing effect on allied morale, the Anglo-French relationship, and, ultimately, on international relations in the twentieth century, was grim and far-reaching. Jennifer Siegel narrates a classic tale of money and power in the modern era-an age of economic interconnectivity and great power interdependency-involving such figures as Lord Revelstoke, chairman of Baring Brothers, the British and French Rothschild cousins, and Sergei Witte, Russia's authoritative finance minister during much of this age of expansion. For Peace and Money highlights the importance of foreign capital in policymaking on the origins and conduct of World War I.
