The Culture of Time and Space 1880-1918-Stephen Kern 1983-01-01 THIS EDITION HAS BEEN REPLACED BY A NEWER EDITION From about 1880 to World War I, sweeping changes in technology and culture created new modes of understanding and experiencing time and space. Stephen Kern writes about the onrush of technics that reshaped life concretely--telephone, electric lighting, steamship, skyscraper, bicycle, cinema, plane, x-ray, machine gun-and the cultural innovations that shattered older forms of art and thought--the stream-of-consciousness novel, psychoanalysis, Cubism, simultaneous poetry, relativity, and the introduction of world standard time. Kern interprets this generation's revolutionized sense of past, present, and future, and of form, distance, and direction. This overview includes such figures as Proust Joyce, Mann, Wells, Gertrude Stein, Strindberg, Freud, Husserl, Apollinaire, Conrad, Picasso, and Einstein, as well as diverse sources of popular culture drawn from journals, newspapers, and magazines. It also treats new developments in personal and social relations including scientific management, assembly lines, urbanism, imperialism, and trench warfare. While exploring transformed spatial-temporal dimensions, the book focuses on the way new sensibilities subverted traditional values. Kern identifies a broad leveling of cultural hierarchies such as the Cubist breakdown of the conventional distinction between the prominent subject and the framing background, and he argues that these levelings parallel the challenge to aristocratic society, the rise of democracy, and the death of God. This entire reworking of time and space is shown finally to have influenced the conduct of diplomacy during the crisis of July 1914 and to havestructured the Cubist war that followed.

Mechanics, Heat, and the Human Body-Howard D. Goldick 2001 This unique introduction to physics for readers who are particularly interested in the human body covers a limited number of distinct physics topics (related to mechanics and heat) in great depth and with many examples and problems that relate directly to readers' interests. Each topic is developed quantitatively using high school-level algebra (linear equations, simultaneous equations), trigonometric functions, and vectors. Applications focus on typical situations--e.g., the need for and proper use of a cane; the need for heat transfer from the body to the environment during exercise and the relative contributions of the various mechanisms (convection, radiation, evaporation of sweat); the relation between energy ingested as food and energy expended during exercise; etc. Motion; Force; Vectors; Newton's Second Law; Momentum And Impulse; Angular Motion; Torque; Shoulder; Knee; Lower Back; FHP; Heat And Energy; Conservation Of Energy; Work; Chemical Energy; Elastic Energy; Nuclear Energy. For premedical students, Physical Therapists, and Occupational Therapists.

River of the Sea-Sam Hazelig 2008-08 River of the Sea is the story of a 4 year old boy (Jules) whose mother was killed in an accident at a hunting lodge. He spent the next twenty years searching for his mothers love in the arms of other women. This event was beyond his recollection and the details were kept a secret by his father who attempted to shield him from this tragedy as he grew into a man. The attempt led to frustration in Jules life when the community in which he was raised gave birth to the rumor that his mother had committed suicide. This rumor led Jules to seek the truth of that tragic day at his fathers hunting lodge. Jules was to find no peace with his many consorts until he went off to the Vietnam war and while attempting to escape his enemy, save the life of a French- Chinese woman whose father had been killed in the Battle of Dien Ben Phu when she was a child.

At the Sign of the Guillotine-Harold Spender 2017-09-16 Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world.The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work.We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

Oulipoems 2-Philip Terry 2009 Poetry. Harry Matthews writes: "The title of Philip Terry's brilliant book pays explicit homage to the Oulipo; but while he uses many of the group's methods, he invariably goes his own way with them, making poems that are full of an original sense of wit and wonder. He has taken the notion that poetry can emerge from arbitrary procedures and transformed it into a sumptuous variety of explosively novel delights."
