Macedonia and the Macedonians-Andrew Rossos 2013-09-01 This detailed volume surveys the history of Macedonia from 600 BC to the present day, with an emphasis on the past two centuries. It reveals how the so-called Macedonian question has long dominated Balkan politics, and how for well over a century and a half, it was the central issue dividing Balkan peoples, as neighboring Bulgaria, Greece, and Serbia struggled for possession of Macedonia—and denied any distinct Macedonian identity.  
Civic and Uncivic Values in Kosovo-Sabrina P. Ramet 2015-02-01 This volume is driven by the conviction that the key to the establishment of stable liberal democracy anywhere in the world and, in this case, in Kosovo lies in the completion of three interrelated tasks: first, the creation of effective political institutions, based on the principle of the separation of powers (including the independence of the judiciary); second, the promotion of the rule of law; and, third, the promotion of civic values, including tolerance or ethnic/religious/sexual minorities, trust, and respect for the harm principle. In fact, there are problems across all three measures, including with judicial independence, with the rule of law, and with civic values. On the last of these, research findings show that the citizens of Kosovo rank extremely low on trust of other citizens, low on engagement in social organizations, and tolerance of gays, lesbians, and atheists, but high on trust in the political institutions of their country and in pride of their newly independent state.  
Ethnonationalism in the Contemporary World-Daniele Conversi 2004 As a result of many states reshaping their foreign policies in response to what is termed the terrorist threat, this title is a guide to understanding the ethnonational forces that undergird much of the terrorist activity.  
Collective Memory, National Identity, and Ethnic Conflict-Victor Roudometof 2002 Roudometof analyzes rival national claims over Macedonia. He examines the symbolic struggle among Greeks, Bulgarians, and Macedonians, as well as the struggle of Albanians for self-determination in Kosovo and western Macedonia, and he deconstructs the national narratives of competing sides and provides an alternative interpretation of Macedonian nation formation.  
Minority Nationalism and the Changing International Order-John McGarry 2001-06-14 Globalization and European integration are sometimes seen as the enemies of nationalism, sweeping away particularisms and imposing a single economic, cultural and political order. The book argues on the contrary that, by challenging the 'nation-state' as the sole basis for identity and sovereignty, they open the way for a variety of claims by stateless nations. It is certainly true that recent years have seen a strong recurrence of nationalist claims, in Europe and in other parts of the world. At the same time, however, globalization and European integration provide new ways of managing nationality claims. At one level, they lower the stakes in independence and might permit peaceful transitions to independence. Yet they may also make independence in the traditional sense less important and provide ways in which multiple and conflicting nationality claims could be accommodated in new political structures. The chapters in this collection consider these issues from a theoretical perspective and through case studies of stateless nationalisms in western, eastern and central Europe, the former Soviet Union and Quebec. They record a wide variety of experiences and show that, while there are no easy answers to conflicting national claims, there is reason to believe that they can be managed through democratic political processes.  
The New Macedonian Question-J. Pettifer 1999-05-19 The Macedonian question has been at the heart of the Balkan crisis for most of the twentieth century. This important book is the first to bring together international

experts to analyse the recent history of Macedonia since the break-up of Yugoslavia, and includes seminal analyses of key issues in ethnic relations, politics, and recent history. It is edited by James Pettifer, a British authority on the southern Balkans, and is likely to prove a landmark in its field.

Political Construction Sites-Pal Kolsto 2018-02-19 The dissolution of the Soviet Union has provided scholars with tremendously rich material for the study of comparative nation building. Not since the decolonization of Africa in the 1960s have so many new states been established in one stroke in one region. The post-Soviet states, moreover, have all the necessary prerequisites for fruitful comparison: a number of similarities, but also significant differences in terms of size, culture, and recent history. In order to survive in the long run, modern states normally must have a population that possesses some sense of unity. Its citizens must adhere to some common values and common allegiance towards the same state institutions and symbols. This does not mean that all inhabitants must necessarily share the same culture, but they should at least regard themselves as members of the same nation. Strategies to foster this kind of common nationhood in a population are usually referred to as 'nation building'. After a decade of post-Soviet nation building certain patterns are emerging, and not always the most obvious ones. Some states seem to manage well against high odds, while others appear to be disintegrating or sinking slowly into oblivion. To a remarkable degree the former Soviet republics have chosen different models for their nation building. This book examines the preconditions for these endeavors, the goals the state leaders are aiming at, and the means they employ to reach them. }

Land InSight-Inge Bobbink 2009 "Land inSight" defines and unravels the Dutch landscapes. Landscapes are subject to change and can be conceived as stacks of horizontal layers that comes to lie on top of or next to one another in the course of time. This book does not distinguish between natural landscape, cultural landscape or urban landscape: the motorway landscape is treated in the same way as the sand ridge landscape.  
Turkey, Islamists and Democracy-Yildiz Atasoy 2005-07-29 Trailblazing study that radically re-examines political Islam Political Islam in Turkey has been headline news following the Istanbul bombings Much needed study of the economic dimensions of political Islam Turkey, Islamists and Democracy is the story of Islam's engagement with the reorganization of the global economy. Yildiz Atasoy examines the development of political Islam in Turkey within the context of the changing balance of domestic and international forces in the world economy and shows how it has taken on a highly sophisticated, cosmopolitan edge. By examining the incorporation of Islam into the existing relations of the Turkish state from the late Ottoman Empire to the present day, the author demonstrates how political Islam interacts with the global restructuring of classes, states and political actors. Atasoy challenges the view of Islamist politics as an anti-Modern, anti-Western force that is fundamentally opposed to the global economy and instead argues that political Islam is cosmopolitan and embedded in processes which incorporate Western modernity into local cultural practices.
