La Saga des Papineau-Micheline Lachance

2013-10-01T00:00:00-04:00 Secrets de famille,

trahison, soupçon de fraude, liaison scandaleuse... La vie des Papineau, l'une des plus illustres familles de notre histoire, est jalonnée de grands bonheurs et de tragédies. À 61 ans, Amédée, le fils aîné de Louis-Joseph Papineau,

chef des patriotes de 1837, s'est cloîtré dans son manoir dominant l'Outaouais pour rassembler ses souvenirs. À sa mort dans des circonstances mystérieuses, en 1903, il a laissé ses journaux intimes, sa correspondance et des mémoires inachevés. Ce monument de papier a permis à Micheline Lachance de reconstituer l'épopée d'une dynastie riche en péripéties. Reconnue pour ses romans historiques de grande qualité écrits dans un style haletant, l'auteure fait revivre, dans *La Saga des Papineau*, trois générations d'hommes et de femmes qui, tout au long du XIXe siècle, ont occupé le devant de la scène et influencé l'histoire du pays.

Science Fiction from Qu\_bec-Amy J. Ransom  
2009-05-06 This study of French-language science fiction from Canada provides an introduction to the subgenre known as "SFQ" (science fiction from Quebec), demonstrating how these multivolume narratives of colonization and postcolonial societies exploit themes incl

Managing the global health response to epidemics-Mathilde Bourrier 2019-02-12 Recent epidemics have prompted large-scale international interventions, aimed at mitigating the spread of disease in a globalized world. During a crisis, however, global health actions - including planning and organizing, communicating about risk, and cost-benefit evaluations - aren't usually part of a single, integrated global response. Arguing that an uncoordinated approach can be challenged by local conditions and expectations, generating a wide range of resistance and difficulties, this volume provides important insights for future outbreak management and global health governance. Drawing on experiences with A(H1N1) and Ebola virus disease, the book is divided into three parts looking at how responses to global health crises have developed, lessons learned from particular pandemics and the ethical implications of our management of them. Individual chapters focus on, among other issues, financing, cost-benefit analysis, matrix management, risk communication and

organizational strategies. Taking a social science perspective, this valuable book outlines the current state of global health emergency responses and explores ways in which they can be improved. It is a useful read for academics and practitioners interested in global health, the sociology of health and illness, health economics and emergency management.

Performing Identities on the Stages of Quebec-Jill

R. Mac Dougall 1997 Pivoting on three productions from the national, local, and international stages, MacDougal (theatre and acting, Pennsylvania State U.) explores the stage as a metaphor of virtual communities and performances as a privileged moment of collective identity rituals. The plays are Saint Jean about the national holiday; the street parody of genealogy Salut vieille branch; and Tectonic Plates, a bicontinental work in progress.

Cold War Canada-Reginald Whitaker 1994 The

Cold War was initiated in Canada in 1945 by the dramatic defection of Igor Gouzenko, a Soviet cipher clerk. This event marked the start of over four decades of muted conflict between the Soviet Union and the West and became a major element of public life in Canada. This book examines the response of the Canadian government to these events and the systematic repression of communists and the Left, directed at civil servants, scientists, trade unionists, and political activists. These campaigns were undertaken in a secrecy imposed by the government, and supported by the RCMP security services. It also discusses the development of Canada's Cold War policy, the emergence of the new security state, and the deepening political alignment of Canada with the United States.
