Baudelaire's World-Rosemary Lloyd 2018-09-05
Charles Baudelaire is often regarded as the founder of modernist poetry. Written with clarity and verve, Baudelaire's World provides English-language

readers with the biographical, historical, and cultural contexts that will lead to a fuller understanding and enjoyment of the great French poet's work. Rosemary Lloyd considers all of Baudelaire's writing, including his criticism, theory, and letters, as well as poetry. In doing so, she sets the poems themselves in a richer context, in a landscape of real places populated with actual people. She shows how Baudelaire's poetry was marked by the influence of the writers and artists who preceded him or were his contemporaries. Lloyd builds an image of Baudelaire's world around major themes of his writing—childhood, women, reading, the city, dreams, art, nature, death. Throughout, she finds that his words and themes echo the historical and physical realities of life in mid-nineteenth-century Paris. Lloyd also explores the possibilities and limitations of translation. As an integral part of her treatment of the life, poetry, and letters of her subject, she also reflects on published translations of Baudelaire's work and offers

some of her own translations.

Serious Fun-Robert Edelman
1993 In *Serious Fun*, Robert Edelman provides the first history of any aspect of Soviet sports, covering the most popular spectator attractions from 1917 up to the end of the Soviet Union in 1991. Edelman has used the highly candid sports press, memoirs, instruction books, team yearbooks, and press guides and supplemented them with Soviet television broadcasts and interviews with players, coaches, team officials, television bureaucrats, journalists, and fans to detail how spectator sport withstood the power of the state and became a sphere of life that allowed citizens to resist, deflect, and even modify the actions of the authorities. Focusing on the most popular sports of soccer, hockey, and basketball, Edelman discusses the dominant teams and the biggest stars: the international competitive successes as well as the many failures

Mallarmé-Rosemary Lloyd
2018-08-06 Upon his death in 1898, the French Symbolist poet Stéphane Mallarmé (b. 1842) left behind a body of

published work which though modest in quantity was to have a seminal influence on subsequent poetry and aesthetic theory. He also enjoyed an unparalleled reputation for extending help and encouragement to those who sought him out. Rosemary Lloyd has produced a fascinating literary biography of the poet and his period, offering a subtle exploration of the mind and letters of one of the giants of modern European poetry. Every Tuesday, from the late 1870s on, Mallarmé hosted gatherings that became famous as the "Mardis" and that were attended by a cross section of significant writers, artists, thinkers, and musicians in fin-de-siecle France, England, and Belgium. Through these gatherings and especially through a voluminous correspondence—eventually collected in eleven volumes—Mallarmé developed and recorded his friendships with Paul Valéry, André Gide, Berthe Morisot, and many others. Attractively written and scrupulously documented, *Mallarmé: The Poet and His Circle* is unique in offering a

biographical account of the poet's literary practice and aesthetics which centers on that correspondence.

Adam Haberberg-Yasmina Reza 2008-12-10 From the award-winning author of Art and Desolation comes this bitingly funny new novel that follows the absurd adventures of a man struggling with a midlife crisis. Adam Haberberg is losing his sight in his left eye. His new book is a flop. And his marriage isn't doing too well. But while sitting one day on a park bench, he sees an old friend from high school, Marie

Thérèse, and suddenly his whole life seems to change. Adam soon finds that his own life has somehow become intertwined with Marie Thérèse's, throwing everything into question. A wry tragicomedy and a nuanced study of a man in the throes of an existential crisis, Adam Haberberg has the same wit and panache that have marked all of Yasmina Reza's work to date.

No Humans Involved-Sylvia Wynter 2015-01-31
Stalinist Values-David L. Hoffmann 2018-08-06

Soviet official culture underwent a dramatic shift in the mid-1930s, when Stalin and his fellow leaders began to promote conventional norms, patriarchal families, tsarist heroes, and Russian literary classics. For Leon Trotsky—and many later commentators—this apparent embrace of bourgeois values marked a betrayal of the October Revolution and a retreat from socialism. In the first book to address these developments fully, David L. Hoffmann argues that, far from reversing direction, the Stalinist leadership remained committed to remaking both

individuals and society—and used selected elements of traditional culture to bolster the socialist order. Melding original archival research with new scholarship in the field, Hoffmann describes Soviet cultural and behavioral norms in such areas as leisure activities, social hygiene, family life, and sexuality. He demonstrates that the Soviet state's campaign to effect social improvement by intervening in the lives of its citizens was not unique but echoed the efforts of other European governments, both fascist and liberal, in the interwar period. Indeed, in Europe, America, and Stalin's Russia, governments sought to inculcate many of the same values—from order and efficiency to sobriety and literacy. For Hoffmann, what remains distinctive about the Soviet case is the collectivist orientation of official culture and the degree of coercion the state applied to pursue its goals.

A Sleep and a Forgetting-
William Dean Howells

2012-11-06 Unless she was
out of her mind there was no
way of accounting for her
behavior... Nowhere in the
prodigious output of William
Dean Howells is there an
example more poignant of his
heart-felt dedication to the
realist movement than this
achingly suspenseful novella.
The story centers on a young
"alienist"—a
psychologist—who meets a
young woman who, at
subsequent encounters, has
no recollection of him. The
doctor launches a
psychological investigation
that appears to be based upon
the most painful memories of
the author himself—Howells
had recently experienced the
loss of a beloved adult
daughter (from what appears
to have been anorexia) and
the institutionalization of
another for "emotional
collapse." The story's
surprising ending reveals not
only the author's deft sense of
craftsmanship, but speaks
movingly to his enduring faith
in the sublime power of

literature. The Art of The
Novella Series Too short to be
a novel, too long to be a short
story, the novella is generally
unrecognized by academics
and publishers. Nonetheless,
it is a form beloved and
practiced by literature's
greatest writers. In the ART
OF THE NOVELLA series,
Melville House celebrates this
renegade art form and its
practitioners with titles that
are, in many instances,
presented in book form for
the first time.

Close Up and Personal-
Catherine Deneuve 2006
Deneuve's startling portrayal
of an icy, sexually
adventurous housewife in
Belle de Jour helped to
establish her as one of the
most remarkable and
compelling actresses of her
generation. Forty years on
and Deneuve is still widely
regarded as one of the
greatest and most
international grandes dames
of French cinema. Despite her
international appeal, however,
Deneuve has always chosen to
avoid the ferocious glare of
Hollywood and seldom allows
the public into her private life.

In **CLOSE UP AND PERSONAL**, Deneuve gives her fans an exclusive look behind the scenes of her life and career in this fascinating collection of seven previously unpublished diaries that she kept while filming abroad. Deneuve charts the shooting of films such as *The April Fools* co-starring Jack Lemmon; *Tristana* directed by the great Luis Bunuel; *Indochine*, shot in Vietnam, and *Lars von Trier's* acclaimed *Dancer in the Dark*, co-starring Bjork. Including an exclusive interview with famous director Pascal Bonitzer, **CLOSE UP AND PERSONAL** offers an intimate and revealing insight into Deneuve's life both on- and off-screen.

Reporting Inequality-Sally Lehrman 2019-03-04 Under increasingly intense newsroom demands, reporters often find it difficult to cover the complexity of topics that deal with racial and social inequality. This path-breaking book lays out simple, effective reporting strategies that equip journalists to investigate disparity's root causes. Chapters discuss how racially disparate outcomes in

health, education, wealth/income, housing, and the criminal justice system are often the result of inequity in opportunity and also provide theoretical frameworks for understanding the roots of racial inequity. Examples of model reporting from ProPublica, the Center for Public Integrity, and the San Jose Mercury News showcase best practice in writing while emphasizing community-based reporting. Throughout the book, tools and practical techniques such as the Fault Lines framework, the Listening Post and the authors' Opportunity Index and Upstream-Downstream Framework all help journalists improve their awareness and coverage of structural inequity at a practical level. For students and journalists alike, *Reporting Inequality* is an ideal resource for understanding how to cover structures of injustice with balance and precision. *Spinning Side Kick*-Anita Lahey 2011 Anita Lahey's second collection, *Spinning Side Kick*, is a hard-knuckled look at the other half. These lively poems mix a girl-about-town cockiness with an all-

too-rare emotional honesty about men, love, and relationships. Whether the subject is a one-man chimney demolition, the lifelong fidelity of seahorses, a lover at war in Afghanistan or a kickboxing match, Lahey confronts the enduring disconnect between the sexes in a language that is slangy and quick, punctuated with jabs. She eyes those moments-in a day, in a life-when the normal clues we rely on disappear, shifting the line between domesticity and danger. In *Spinning Side Kick*, a talented poet returns with sharper aim.

ICT for Education, Development, and Social Justice-Charalambos Vrasidas 2009-03-01 This volume provides examples of current developments on the role of ICT for education, development, and social justice within an international context. Chapters draw on advanced contemporary thinking from scholars and practitioners in the field to present case studies of how ICT can be used to promote sustainable development and social justice. Social justice is understood in a wide sense as

the pursuit of democracy, justice and development in the struggle against any form of oppression; it is within this context that ICT is explored as a tool for social change. The objectives of this book are: To analyze the philosophical, historical, political, and cultural backgrounds and contexts that are constitutive of contemporary challenges and tensions in the role of ICT for education, development, and social justice around the world; To appreciate the contextual and international dimensions of the tensions and challenges faced by educators around the world and contribute to ongoing efforts to sketch a vision for addressing their needs; To explore ways in which ICT in education can promote social justice and contribute toward sustaining communities around the world

Selected Poems-Charles-Pierre Baudelaire 2004-03-25 The poems of Charles Baudelaire are filled with explicit and unsettling imagery, depicting with intensity every day subjects ignored by French literary conventions of his time.

'Tableaux parisiens' portrays the brutal life of Paris's thieves, drunkards and prostitutes amid the debris of factories and poorhouses. In love poems such as 'Le Beau Navire', flights of lyricism entwine with languorous eroticism, while prose poems such as 'La Chambre Double' deal with the agonies of artistic creation and mortality. With their startling combination of harsh reality and sublime beauty, formal ingenuity and revolutionary poetic language, these poems, including a generous selection from *Les Fleurs du Mal*, show Baudelaire as one of the most influential poets of the nineteenth century.

Translating Baudelaire-Clive Scott 2000 This volume explains how a translator persuades the reader to respond to a translation as a text with its own creative, dynamic and expressive ambitions. Focusing on Baudelaire, this study includes a translation of the long poem, *Le Voyage*.
A History of Women's Writing in France-Sonya Stephens 2000-05-22 This volume was the first historical introduction to women's

writing in France from the sixth century to the present day. Specially-commissioned essays by leading scholars provide an introduction in English to the wealth and diversity of French women writers, offering fascinating readings and perspectives. The volume as a whole offers a cohesive history of women's writing which has sometimes been obscured by the canonisation of a small feminine elite. Each chapter focuses on a given period and a range of writers, taking account of prevailing sexual ideologies and women's activities in, or their relation to, the social, political, economic and cultural surroundings. Complemented by an extensive bibliography of primary and secondary works and a biographical guide to more than one hundred and fifty women writers, it represents an invaluable resource for those wishing to discover or extend their knowledge of French literature written by women.
Pattern for Soviet Youth-Ralph Talcott Fisher 1959
Bearing False Witness-Rodney Stark 2016-04-26 As we all know and as many of our well

established textbooks have argued for decades, the Inquisition was one of the most frightening and bloody chapters in Western history, Pope Pius XII was anti-Semitic and rightfully called “Hitler’s Pope,” the Dark Ages were a stunting of the progress of knowledge to be redeemed only by the secular spirit of the Enlightenment, and the religious Crusades were an early example of the rapacious Western thirst for riches and power. But what if these long held beliefs were all wrong? In this stunning, powerful, and ultimately persuasive book, Rodney Stark, one of the most highly regarded sociologists of religion and bestselling author of *The Rise of Christianity* (HarperSanFrancisco 1997) argues that some of our most firmly held ideas about history, ideas that paint the Catholic Church in the least positive light are, in fact, fiction. Why have we held these wrongheaded ideas so strongly and for so long? And if our beliefs are wrong, what, in fact, is the truth? In each chapter, Stark takes on a well-established anti-Catholic

myth, gives a fascinating history of how each myth became the conventional wisdom, and presents a startling picture of the real truth. For example, Instead of the Spanish Inquisition being an anomaly of torture and murder of innocent people persecuted for “imaginary” crimes such as witchcraft and blasphemy, Stark argues that not only did the Spanish Inquisition spill very little blood, but it was a major force in support of moderation and justice. Instead of Pope Pius XII being apathetic or even helpful to the Nazi movement, such as to merit the title, “Hitler’s Pope,” Stark shows that the campaign to link Pope Pius XII to Hitler was initiated by the Soviet Union, presumably in hopes of neutralizing the Vatican in post-World War II affairs. Pope Pius XII was widely praised for his vigorous and devoted efforts to saving Jewish lives during the war. Instead of the Dark Ages being understood as a millennium of ignorance and backwardness inspired by the Catholic Church’s power, Stark argues that the whole notion of the “Dark Ages” was

an act of pride perpetuated by anti-religious intellectuals who were determined to claim that theirs was the era of "Enlightenment." In the end, readers will not only have a more accurate history of the Catholic Church, they will come to understand why it became unfairly maligned for so long. Bearing False Witness is a compelling and sobering account of how egotism and ideology often work together to give us a false truth.

Change; Principles of Problem Formation and Problem Resolution-Paul Watzlawick 1974 Three prominent American therapists detail their theories and strategies for promoting human change and dealing with related psychological problems.

Loiterature-Ross Chambers 1999 The fabric of the western literary tradition is not always predictable. In one wayward strand, waywardness itself is at work, delay becomes almost predictable, triviality is auspicious, and failure is cheerfully admired. This is loiterature. Loiterature is the first book to identify this strand, to follow its path

through major works and genres, and to evaluate its literary significance. ø By offering subtle resistance to the laws of "good social order," loiterly literature blurs the distinctions between innocent pleasure and harmless relaxation on the one hand, and not-so-innocent intent on the other. The result is covert social criticism that casts doubt on the values good citizens hold dear?values like discipline, organization, productivity, and, above all, work. It levels this criticism, however, under the guise of innocent wit or harmless entertainment. Loiterature distracts attention the way a street conjurer diverts us with his sleight of hand.øøø If the pleasurable has critical potential, may not one of the functions of the critical be to produce pleasure? The ability to digress, Ross Chambers suggests, is at the heart of both, and loiterature?s digressive waywardness offers something to ponder for critics of culture as well as lovers of literature. Sport in the USSR-Mike O'Mahony 2006-06-15 "Sport in the USSR explores physical

and visual culture from the early years of the Soviet Union to its collapse. It is a fascinating addition to the current debates in the fields of sociology, visual culture and Soviet history."--Jacket. The Orient of Style-Beryl Schlossman 1991 In this study of modernist aesthetics, Beryl Schlossman reveals how for such writers as Marcel Proust, Gustave Flaubert, and Charles Baudelaire, the Orient came to symbolize the highest aspirations of literary representation. She demonstrates that through allegory, modernism became a style itself, a style that married the ancient and the modern and that emerged as both a cause and an effect, both an ideal construct and an textual materiality, all symbolized by the Orient—land of style, place of plurality, and site of the coexistence of holy lands. Toward the end of Remembrance of Things Past, the narrator describes the act of creating a work of art as a conversion of sensation into a spiritual equivalent. By means of such allegories of "conversion," Schlossman shows, the modernist artist

disappeared within the work of art and left behind the trace of his sublime vocation, a vocation in which he was transformed, in Schlossman's words, "into a kind of priest kneeling at the altar of beauty before the masked divinity of representation." The author shows how allegory—the representation of the symbolic as something real—was adapted by modernist writers to reflect subjectivity while masking an authorial origin. She reveals how modernist allegory arose, as Walter Benjamin suggests, at the crossroads of history, sociology, economics, urban architecture, and art—providing a kind of map of capitalism—and was produced through the eyes of a melancholic gazing at a "monument of absence." Shimmering in a Transformed Light-Rosemary Lloyd 2005 Although much has been written lately on the links between painting and writing, little or no attention has been paid to those moments in literature when the narrative stops to allow for the description of those objects we associate with still life. Rosemary Lloyd's book shows

how fascinating this overlooked area is; how rich in suggestions of class, race, and gender; how much it indicates about human pleasures and about the experience of space and time. Lloyd focuses on the last two centuries, particularly at points marked by the irruption of images of contingency and rapid change into the fields of art: for example, the year of the Terror in French history; the decade in which Haussman's politically driven transformation of Paris led Baudelaire to write his great modernist poem "Le Cygne"; and "on or about December 1910," the date to which Virginia Woolf attributes a revolution in the definition of literary character. Lloyd's central concern lies with the ways in which the still life, written or painted, both evokes and attempts to deal with the sense of contingency. While she makes frequent reference to paintings, she focuses above all on written still lifes, particularly those moments when novels pause to address the subject matter of still life--a bowl of fruit, a hat rack, a desk cluttered

with pens and papers--in ways that invite contemplation of other and broader cultural domains. She draws on literary and art works from Australia, England, France, Germany, Ireland, Italy, and the United States.

Networks, Crowds, and Markets-David Easley 2010-07-19 Are all film stars linked to Kevin Bacon? Why do the stock markets rise and fall sharply on the strength of a vague rumour? How does gossip spread so quickly? Are we all related through six degrees of separation? There is a growing awareness of the complex networks that pervade modern society. We see them in the rapid growth of the Internet, the ease of

global communication, the swift spread of news and information, and in the way epidemics and financial crises develop with startling speed and intensity. This introductory book on the new science of networks takes an interdisciplinary approach, using economics, sociology, computing, information science and applied mathematics to address fundamental questions about the links that connect us, and the ways that our decisions can have consequences for others.

Baudelaire and the Art of Memory-James Andrew

Hiddleston 1999 This study of Baudelaire's art criticism and its relationship with his writing seeks to cover all aspects of the subject, including the key aesthetic ideas, the essays on laughter and caricature, and the idea that all art springs from memory.

Objects of Desire-Beryl Schlossman 1999 Through an innovative use of style, her literary examples articulate an art of seduction and an aesthetic that transforms, suspends, or erases identity - individual, gender, social, and cultural."--BOOK JACKET.
