The Palgrave Handbook of the History of Women on Stage-Jan Sewell 2020-04-29 This book brings together nearly 40 academics and theatre practitioners to chronicle and celebrate the courage, determination and achievements of women on stage across the ages and around the globe. The collection stretches from ancient Greece to present-day Australasia via the United States, Soviet Russia, Europe, India, South Africa and Japan, offering a series of analytical snapshots of women performers, their work and the conditions in which they produced it. Individual chapters provide in-depth consideration of specific moments in time and geography while the volume as a whole and its juxtapositions stimulate consideration of the bigger picture, underlining the challenges women have faced across cultures in establishing themselves as performers and the range of ways in which they gained access to the stage. Organised chronologically, the volume looks not just to the past but the future: it challenges the very notions of 'history', 'stage' and even the definition of 'women' itself.

All Passion Spent-Vita Sackville-West 2017-07-04 Irreverently funny and surprisingly moving, All Passion Spent is the story of a woman who discovers who she is just before it is too late. After the death of elder statesman Lord Slane—a former prime minister of Great Britain and viceroy of India—everyone assumes that his eighty-eight-year-old widow will slowly fade away in her grief, remaining as proper, decorative, and dutiful as she has been her entire married life. But the deceptively gentle Lady Slane has other ideas. First she defies the patronizing meddling of her children and escapes to a rented house in Hampstead. There, to her offspring's utter amazement, she revels in her new freedom, recalls her youthful ambitions, and gathers some very unsuitable companions—who reveal to her just how much she had sacrificed under the pressure of others' expectations.

The Cambridge Companion to the Actress-John Stokes 2007-02-01 This Companion brings together sixteen new essays which examine, from various perspectives, the social and cultural role of the actress throughout history and across continents. Each essay focuses on a particular stage in her development, for example professionalism in the seventeenth century; the emergence of the actress/critic during the Romantic period and, later on, of the actress as best selling autobiographer; the coming of the drama schools which led to today's emphasis on the actress as a highly-trained working woman. Chapters consider the image of the actress as a courtesan, as a 'muse', as a representative of the 'ordinary' housewife, and as a political activist. The collection also contains essays on forms, genres and traditions - on cross dressing, solo performance, racial constraints, and recent Shakespeare - as well as on the actress in early photography and on film. Its unique range will fascinate, surprise and instruct theatre-goers and students alike.

Secrets & Lies-Marléne Burger 2012-10-30 This is a tale of military machination and scientific subterfuge, of combatants who disappeared without trace, and bizarre experiments carried out behind locked doors. In waging 'total war' during the 1970s and 1980s, South African securocrats demanded a 'total strategy', including secret and unconventional means to fight the perceived 'total onslaught' against the apartheid regime. Against that background, a group of scientists under military guidance crossed the threshold of an arcane realm, familiar to ordinary citizens only through the imaginations of fiction writers - a world marked by covert operations and germ warfare, high-stakes deals in the international arms bazaar, smoke and mirrors, plausible deniability. A world where intrigue and double-crossing are routine, where secret missions and sinister sub-plots are the milestones for life in the fast lane. Set against the backdrop of the international Cold War and South Africa's bloody passage to democracy, the events related in this book were uncovered during ten years of investigation and made public by the trial of Wouter Basson, the first criminal prosecution in the world of the head of an official chemical and biological warfare programme. As the authors take you from combat zone to courtroom, read how one of the apartheid era's best-kept secrets became the subject of one of the 'new' South Africa's costliest legal exercises - and how the former military officer at the heart of both walked away a free man. Ten years have passed since Wouter Basson was acquitted of the criminal charges brought against him and Secrets and Lies was originally published. This eBook edition comes with a brand new foreword by author Chandre Gould.

The Shephelah during the Iron Age-Oded Lipschits 2017-04-14 The area of the Judean Foothills - the biblical Shephelah - has in recent years become one of the most intensively excavated regions in the world. Numerous projects, at sites of different types and utilizing various methodological approaches, are actively excavating in this region. Of particular importance are the discoveries dating to the Iron Age, a period when this region was a transition zone between various cultures—Philistine, Canaanite, Judahite, and Israelite. The current volume includes reports from eight of the excavations currently being conducted in the region (Azekah, Beth Shemesh, Gezer, Khirbet Qeiyafa, Tel Burna, Tel Halif, Tell es-Safi/Gath, and Tel Zayit), as well as a general study of the region by Ido Koch. The importance of this volume lies not only in the fact that it collects up-to-date reports on most of the current excavations in the region but also demonstrates the lively, at times even boisterous, scholarly discussions taking place on various issues relating to the archaeology and history of the Iron Age Shephelah and its immediate environs. This volume serves as an excellent introduction to current research on the Iron Age in this crucial zone and also serves as a reflection of current trends, methodologies, and approaches in the archaeology of the Southern Levant.

Performance and Identity in the Classical World-Anne Duncan 2006-01-30 Performance and Identity in the Classical World traces attitudes towards actors in Greek and Roman culture as a means of understanding ancient conceptions of, and anxieties about, the self. Actors were often viewed as frauds and impostors, capable of deliberately fabricating their identities. Conversely, they were sometimes viewed as possessed by the characters that they played, or as merely playing themselves onstage. Numerous sources reveal an uneasy fascination with actors and acting, from the writings of elite intellectuals (philosophers, orators, biographers, historians) to the abundant theatrical anecdotes that can be read as a body of 'popular performance theory'. This 2005 text examines these sources, along with dramatic texts and addresses the issue of impersonation, from the late fifth century BCE to the early Roman Empire.

The Madaba Plains Project-Douglas R. Clark 2016-04-08 The year 2008 marks the 40th anniversary of Madaba Plains Project archaeological research in the Hashemite Kingdom of Jordan. The Madaba Plains Project is one of the longest-lived, continuously running archaeological excavation projects in the Middle East. Spanning four decades, the project, with its beginnings at Tall Hisban in the late sixties, has engaged 1,500 participants, produced scores of publications and spawned a dozen other projects. Its legacy includes being one of the first major Near Eastern archaeology projects to adopt a multi-millennial, regional approach; to incorporate ethnoarchaeology and environmental studies; to construct data around a food-systems' approach; and to computerize procedures for archaeological data acquisition and analysis, thus helping advance both the theoretical underpinnings and the field methods of archaeology in the southern Levant and beyond. Madaba Plains Project directors, wishing to celebrate this major scientific and historical milestone, have produced this anniversary volume which: highlights the value of ongoing collaborative research across the region of central Jordan, attempting to explain life and survival from the Bronze ages through the Islamic and early modern periods and features the latest results from ongoing research; enlivens the discussion by hearing from major scholars in the field who, in the process of assessing the contributions of the project to the archaeology of the southern Levant, broaden the discussion in the context of ancient Near Eastern archaeological research; and, expands the horizons of the project's research by presenting the ever enlarging number and extent of projects conducted by dig directors once on staff with the Madaba Plains Project, thereby taking readers all over Jordan and beyond. The History and Archaeology of Phoenicia-Hélène Sader 2019-11-23 An insightful historical account of Phoenicia that illustrates its cities, culture, and daily life Hélène Sader presents the history and archaeology of Phoenicia based on the available contemporary written sources and the results of archaeological excavations in Phoenicia proper. Sader explores the origin of the term Phoenicia; the political and geographical history of the city-states Arwad, Byblos, Sidon, and Tyre; and topography, climate, and natural resources of the Phoenician homeland. Her limited focus on Phoenicia proper, in contrast to previous studies that included information from Phoenician colonies, presents the bare realities of the opportunities and difficulties shaping Phoenician life. Sader's evaluation and synthesis of the evidence offers a corrective to the common assumption of a unified Phoenician kingdom. Features Historical as well as modern maps with the locations of all relevant archaeological sites Faunal and floral analyses that shed light on the Phoenician diet Petrographic analysis of pottery that sheds light on trading patterns and developments

Composing Ourselves-Dorothy Chansky 2005 When movies replaced theater in the early twentieth century, live drama was wide open to reform. A rebellion against commercialism, called the Little Theatre movement, promoted the notion that theatre is a valuable form of self-expression. Composing Ourselves argues that the movement was a national phenomenon that resulted in lasting ideas for serious theatre that are now ordinary parts of the American cultural landscape.

Actresses as Working Women-Tracy C. Davis 2002-03-11 Using historical evidence as well as personal accounts, Tracy C. Davis examines the reality of conditions for 'ordinary' actresses, their working environments, employment patterns and the reasons why acting continued to be such a popular, though insecure, profession. Firmly grounded in Marxist and feminist theory she looks at representations of women on stage, and the meanings associated with and generated by them.

Kitchen Sink Realisms-Dorothy Chansky 2015-11 From 1918's Tickless Time through Waiting for Lefty, Death of a Salesman, A Streetcar Named Desire, A Raisin in the Sun, and The Prisoner of Second Avenue to 2005's The Clean House, domestic labor has figured largely on American stages. No dramatic genre has done more than the

one often dismissively dubbed "kitchen sink realism" to both support and contest the idea that the home is naturally women's sphere. But there is more to the genre than even its supporters suggest. In analyzing kitchen sink realisms, Dorothy Chansky reveals the ways that food preparation, domestic labor, dining, serving, entertaining, and cleanup saturate the lives of dramatic characters and situations even when they do not take center stage. Offering resistant readings that rely on close attention to the particular cultural and semiotic environments in which plays and their audiences operated, she sheds compelling light on the changing debates about women's roles and the importance of their household labor across lines of class and race in the twentieth century. The story begins just after World War I, as more households were electrified and fewer middle-class housewives could afford to hire maids. In the 1920s, popular mainstream plays staged the plight of women seeking escape from the daily grind; African American playwrights, meanwhile, argued that housework was the least of women's worries. Plays of the 1930s recognized housework as work to a greater degree than ever before, while during the war years domestic labor was predictably recruited to the war effort—sometimes with gender-bending results. In the famously quiescent and anxious 1950s, critiques of domestic normalcy became common, and African American maids gained a complexity previously reserved for white leading ladies. These critiques proliferated with the re-emergence of feminism as a political movement from the 1960s on. After the turn of the century, the problems and comforts of domestic labor in black and white took center stage. In highlighting these shifts, Chansky brings the real home.

Antique and Twentieth Century Jewellery-Vivienne Becker 1987 Aiming to spotlight areas of collectability—mainly from the 18th, 19th, and 20th centuries—which are available to enthusiasts today, this is an important study of both well-known and forgotten jewelry fashions and trends. Each chapter—there are 22 in this second edition—concentrates on a specific topic, but there is a comprehensive cross-referencing to other chapters. Almost every item shown has been on the market in recent years. No other jewelry book reflects the antique jewelry market or collectors' enthusiasms in quite the same way. Among the types of jewelry covered are diamond brooches, coral 19th-century gold work, piqué, silver jewels, cameos and intaglios, mosaics, Edwardian pendants, and unusual materials. "Theme" jewelry is another area described with an amazing variety of representations of

animals or flowers, as well as Victorian Scottish jewelry and 19th-century archaeological revival jewels inspired by the goldwork of the Greeks, Etruscans, or ancient Egyptians. The work of individual artist-jewelers, who played such an important part in the Art Nouveau and Art Deco movements, is documented, along with the glamorous, highly sought after jewels created by the great jewel houses like Cartier, Tiffany, Falize, and Van Cleef & Arpels. Finally the important "movements"—Arts and Crafts; Art Nouveau, including Liberty's huge output; and Art Deco—are assessed. Newly added is a chapter on Retro Modern—the cocktail jewelry for the 1940s—the best of which has become eminently collectable.

Tyler Adams-Lindsay Anderson 2019-08-13 "What time is Tyler getting here?" Thea, Tori and her twin sister, Tyler's mutual best friend asked. "She will be arriving at 6:15, but will be home at 7." Tori smiled, excitement filling her chest. "I cannot wait to see my twin sister! I love her and have missed her so much!" "We have, too!" Thomas, Tori's twin brother, and Thea and Tori's other mutual best friend, replied. "How long is she going to be here this time?" "She will be here until Saturday." Tori replied. "It's hard when Tyler is here for only a short while, because I don't get to see her often." "It's hard for us, too, girl." Thea frowned, putting an arm around her best friend's shoulder. As the twins and Tori put the Christmas gingerbread cookies in the oven, they thought about Tyler, and how much they missed her. Even though it made their bond with Tyler stronger, as well as the fact that they loved it when Tyler came home, it was still hard because of how short her stay was. However, they also knew that any time with Tyler was better than no time, at all. "So, Thomas," Tori smiled at her best guy friend. "Do you think that this visit will be the visit that you will finally tell Tyler how you feel about her?" "Hopefully." Thomas smiled, blushing a little.

The South Pole, Volume 1-Roald Amundsen 2007-02-20 On February 10, 1911, we started for the South to establish depots, and continued our journey until April 11. We formed three depots and stored in them 3 tons of provisions, including 22 hundredweight of seal meat. As there were no landmarks, we had to indicate the position of our depots by flags, which were posted at a distance of about four miles to the east and west. The first barrier afforded the best going, and was specially adapted for dog-sledging. Thus, on February 15 we did sixty-two miles with sledges. Each sledge weighed 660 pounds, and we had six dogs for each. The upper barrier ("barrier surface") was smooth and even. There were a few crevasses here and there, but we only found them dangerous at one or two points. The barrier went in long, regular undulations. The weather was very favourable, with calms or light winds. The lowest temperature at this station was -49 F., which was taken on March 4.
