You may not be perplexed to enjoy all book collections la satira 11 di giovenale francesco bracci that we will extremely offer. It is not vis--vis the costs. Its more or less what you need currently. This la satira 11 di giovenale francesco bracci, as one of the most working sellers here will unconditionally be in the middle of the best options to review.

La satira 11 di Giovenale-Francesco Bracci 2014-11-18 Juvenal has long been known as the poet of indignation, a view based mainly on his early satires. His later work had been relatively overlooked until recently. The present commentary is meant to be a contribution to the reappraisal of the later part of Juvenal's career, a significant trend in the juvenalian scholarship of the last decade. Among the topics addressed there are the relationship between Juvenal and Martial, his position within the tradition of Roman satire, his relationship with the cultural discourse of Roman moralistic literature, the intertextual links with satire 5 and the vexata quaestio of the literary or authentic nature of Juvenal's work. The author denies a strong break between the early books and the 4th and satire 11 in particular, advocating the idea of a gradual evolution rather than a radical conversion. In the commentary the reader will find a comprehensive analysis of textual problems and stylistic features, in a historically comparative light, with early Juvenal, other satiric poets and Martial as the chief objects of comparison. Realien are also devoted close attention. The volume will thus be a useful tool for scholars and students interested in latin satire and poetry, and also for historians of roman society in the early imperial age.

Le satire di Giovenale-Decimus Iunius Iuvenalis 1842

Juvenal's Tenth Satire-Paul Murgatroyd 2018-04-01 This is not a commentary on Juvenal 10 but a critical appreciation of the poem which examines it on its own and in context and tries to make it come alive as a piece of literature, offering one man's close reading of Satire 10 as poetry, and concerned with literary criticism rather than philological minutiae. In line with the recent broadening of insight into Juvenal's writing this book often addresses the issues of distortion and problematizing and covers style, sound and diction as well. Much time is also devoted to intertextuality and to humour, wit and irony. This is something new: building on the work of scholars like Martyn, Jenkyns and Schmitz, who see in Juvenal a consistently skilful and sophisticated author, this is a whole book demonstrating a high level of expertise on Juvenal's part sustained throughout a long poem (rather than intermittent flashes). This investigation of 10 leads to the conclusion that Juvenal is an accomplished poet and provocative satirist, a writer with real focus, who makes every word count, and a final chapter exploring 11 and 12 confirms that assessment. Translation of the Latin and explanation of references are included so that Classics students will find the book easier to use and it will also be accessible to scholars and students interested in satire outside of Classics departments.

I costumi romani nelle Satire di Giovenale; commento storico-filosofico ...- Antonio Codara 1901

Le Satire di Giovenale-Juvenal 1903

Giovenale, "Satira" V-Biagio Santorelli 2013-10-14 This new interpretation of V Satire is embedded in a broader analysis of a central topos in Juvenal's work: the degradation of the clientela. The introduction illuminates Juvenal's attitude towards this topic, giving particular attention to his relationship to Martial and to the reception of this topos by Lucian. The commentary explains text critical and linguistic issues and thoroughly investigates the most relevant historical aspects.

Juvenal and the Satiric Emotions-Catherine Keane 2015-02-23 In his sixteen verse Satires, Juvenal explores the emotional provocations and pleasures associated with social criticism and mockery. He makes use of traditional generic elements such as the first-person speaker, moral diatribe, narrative, and literary allusion to create this new satiric preoccupation and theme. Juvenal defines the satirist figure as an emotional agent who dramatizes his own response to human vices and faults, and he in turn aims to engage other people's feelings. Over the course of his career, he adopts a series of rhetorical personae that represent a spectrum of satiric emotions, encouraging his audience to ponder satire's proper emotional mode and function. Juvenal first offers his signature indignatio with its associated pleasures and discomforts, then tries on subtler personae that suggest dry detachment, callous amusement, anxiety, and other affective states. As Keane shows, the satiric emotions are not only found in the author's rhetorical performances, but they are also a major part of the human farrago that the Satires purport to treat. Juvenal's poems explore the dynamic operation of emotions in society, drawing on diverse ancient literary, rhetorical, and philosophical sources. Each poem uniquely engages with different texts and ideas to reveal the unsettling powers of its emotional mode. Keane also analyzes the "emotional plot" of each book of Satires and the structural logic of the entire series with its wide range of subjects and settings. From his famous angry tirades to his more puzzling later meditations, Juvenal demonstrates an enduring interest in the relationship between feelings and moral judgment.
