La science et le monde moderne d'Alfred North Whitehead?-Franois Beets 2013-05-02 The second international Chromatiques whiteheadiennes conference was devoted exclusively to the exegesis and contextualization of Whitehead's Science and the Modern World (1925). In order to elucidate the meaning and significance of this epoch-making work, the Proceedings are designed to form "companion" volume. With one paper devoted to each of its thirteen chapters, the Proceedings aim, on the one hand, to identify the specific contribution of each chapter to Whitehead's own research program - that is to say, to put its categories into perspective by means of an internal analysis- and, on the other hand, to identify its global impact in the history of ideas. L'criture du bonheur dans le roman contemporain-Ruth Amar 2011-01-18 Through the ages, the pursuit of Happiness has been at the heart of the needs and desires each individual would seek to fulfill, while as a concept, Happiness has always resonated strongly in poetic as well as philosophical, sociological and psychological contexts. But what about Happiness today, in a world dominated by technology, driven by productivity and dictated by efficiency? Does Happiness still feature in contemporary fiction in any significant way? Or has it perhaps gone underground, adopting different guises? Would we still call that "duty of happiness" that Pascal Bruckner saw as "present at the second half of the twentieth century" a relevant force today? Or has it waned perceptibly? The articles brought together in this volume seek to work out answers to these and similar questions, creatively addressing the imminent risks but also eagerly following up the intriguing possibilities one encounters when interrogating Happiness in the contemporary novel. Originally based on an international conference organized at the University of Haifa, Israel, in May 2010, the volume is structured around the axes we found useful as a basis for the various approaches towards Happiness in Europe and the historical and social events that influenced the writing of Happiness as they defined the 20th century and have impacted on the 21st: the Holocaust, the Soviet dystopia, consumerism, postmodernism, "everyday life," the various as yet unarticulated new modes of life they have given rise to, and so on. A new writing of happiness then? At the very least this volume targets the contemporary novel without wanting to solidify works, instead taking into account the fluctuations Happiness has been subjected to, and the diversity and especially the paradoxes it has created, while we have been keen to preserve a "precise" reading of the texts and have felt compelled to respect and preserve the particular features that make the writings of the authors we focus on stand out. Thme philosophique aussi bien que potique, sociologique et psychologique, le bonheur s'difie  la mesure de chacun. « N'est-il pas vrai que, nous autres hommes, nous dsirons tous tre heureux ? » (Platon). Or dans notre monde actuel domin par la technique, la recherche  outrance du productif et de l'efficacit, qu'en est-il du bonheur ? Est-il encore prsent aux critures romanesques contemporaines ? Sous quelles formes se prsenterait sa recherche ? Ce « devoir de bonheur propre  la deuxime moiti du XXe sicle » dont parle Pascal Bruckner, continue-t-il toujours  tre d'actualit ? S'est-il renforc ou, au contraire, s'est-il affaibli? Le projet d'un questionnaire du bonheur dans le roman contemporain comportait de gros risques, mais il offrait en mme temps des possibilits stimulantes. A la suite du colloque international organis  l'universit de Haifa en mai 2010, les textes runis dans ce livre, cherchent  laborer des lments de rponse  ces questions. Le volume offre un tat des lieux du bonheur dans le roman depuis 1980 et prsente une large diversit d'approches, de dfinitions, d'interrogations sur l'criture du bonheur sur trois dcennies. Le recueil s'articule autour d'axes qui ont servi de base aux diffrentes approches du bonheur en Europe et d'vnements historiques et sociaux qui ont pu influencer l'criture du bonheur aux diffrentes priodes du XXe et XXe sicles, telles que l'Holocauste, la dystopie en Russie, le postmodernisme et le consumrisme, le quotidien, les diffrents paradoxes du bonheur, les nouveaux modes de vie. Nouvelle criture du bonheur? Du moins, ce volume vise-t-il le contemporain sans figer les uvres, tout en tenant compte des fluctuations du sujet, de sa diversit, de ses paradoxes surtout, tout en conservant la lecture prcise des textes et en respectant la particularit de l'criture des auteurs traits.

Fate, Providence and Moral Responsibility in Ancient, Medieval and Early Modern Thought-Pieter d'Hoine

2014-03-05 Essays on key moments in the intellectual history of the West This book forms a major contribution to the discussion on fate, providence and moral responsibility in Antiquity, the Middle Ages and Early Modern times. Through 37 original papers, renowned scholars from many different countries, as well as a number of young and promising researchers, write the history of the philosophical problems of freedom and determinism since its origins in pre-socratic philosophy up to the seventeenth century. The main focus points are classic Antiquity (Plato and Aristotle), the Neoplatonic synthesis of late Antiquity (Plotinus, Proclus, Simplicius), and thirteenth-century scholasticism (Thomas Aquinas, Henry of Ghent). They do not only represent key moments in the intellectual history of the West, but are also the central figures and periods to which Carlos Steel, the dedicatory of this volume, has devoted his philosophical career.

COMMENT DIEU VOIT LE MONDE-Bertin Nana 2007-08-08 "Comment Dieu Voit le Monde" est un message de paix sur la terre, une invitation aux chrtiens et au monde  devenir paci que et doux comme les anges, une invitation  l'humanit  devenir compatissante et solidaire pour combattre la pollution et le rchauffement de la terre. "Comment Dieu Voit le Monde", c'est la Bible, la philosophie occidentale, les mathmatiques, la littrature, la science, la vie. Le livre est unique et rvolutionnaire dans l'histoire de l'humanit parce que l'auteur utilise le raisonnement mathmatique pour prouver les vrits en religion, en philosophie, et sur la vie. L'auteur est un dfenseur de la civilisation de la renaissance et de la croissance zro comme le recommandait le Club de Rome dans le livre intitul "Halte  la croissance". L'auteur explique les mystres de Satan et du pch original en utilisant le personnalisme, la phnomnologie, l'existentialisme, et les mathmatiques. Les mathmatiques sont la logique et l'art de raisonner. L'auteur dmontre mathmatiquement et bibliquement qu'un chrtien est un saint, un philosophe, et un communiste. C'est--dire que l'humanit doit devenir communiste pour esprer rsoudre les problmes de la pollution, du chmage, de la violence, de la pauvret, de la sant, des guerres etc. C'est--dire que l'humanit doit devenir communiste si elle veut survivre. uvres Compltes ...
