A Statistical Guide for the Ethically Perplexed-Lawrence Hubert 2012-09-25 For disciplines concerned with human well-being, such as medicine, psychology, and law, statistics must be used in accordance with standards for ethical practice. A Statistical Guide for the Ethically Perplexed illustrates the proper use of probabilistic and statistical reasoning in the behavioral, social, and biomedical sciences. Designed to be consulted when learning formal statistical techniques, the text describes common instances of both correct and false statistical and probabilistic reasoning. Lauded for their contributions to statistics, psychology, and psychometrics, the authors make statistical methods relevant to readers' day-to-day lives by including real historical situations that demonstrate the role of statistics in reasoning and decision making. The historical vignettes encompass the English case of Sally Clark, breast cancer screening, risk and gambling, the Federal Rules of Evidence, "high-stakes" testing, regulatory issues in medicine, difficulties with observational studies, ethics in human experiments, health statistics, and much more. In addition to these topics, seven U.S. Supreme Court decisions reflect the influence of statistical and psychometric reasoning and interpretation/misinterpretation. Exploring the intersection of ethics and statistics, this comprehensive guide assists readers in becoming critical and ethical consumers and producers of statistical reasoning and analyses. It will help them reason correctly and use statistics in an ethical manner.

Birth of the Firebringer-Meredith Ann Pierce 2003-06-23 Volume One of the Firebringer Trilogy Jan, the prince of the unicorns, is high-spirited, reckless-and the despair of his mighty father, Korr. Reluctantly, Korr allows Jan to accompany the other initiate warriors on a pilgrimage. Soon Jan's curiosity leads him, along with his friend Dagg, and their mentor, the female warrior Tek, into the greatest dangers-deadly gryphons, sly pans, wyverns, pards, and renegade unicorns. Yet time after time they are rescued, leading Jan to wonder: Am I the heir to a special destiny? "The language is poetic, with wonderful rhythm and sweeping images...The world is a compelling one, and Jan is a dramatic hero."—Booklist

Paper Cities-Susana S. Martins 2016-04-21 Thought-provoking case studies on cities, photographs and booksPhotographic books are almost as old as photography itself, and the city is one of their first and more recurring themes. Cities have been, and they continue to be, intensely photographed under a wide variety of forms, materialities, intentions and genres. This volume examines how a city can be moulded through the particularities of a photographic book, suggesting how urban portraits configure an overlooked, yet quite specific, photo-textual practice. Ranging from early photography to contemporary works, Paper Cities gathers thought-provoking case studies from several international contexts, providing new insights into art, material culture, history, heritage and memory, while simultaneously illuminating the debate on cities, photographs and books. Contributors: Steven Jacobs (Ghent University), Simon Dell (University of East Anglia), Hugh Campbell (University College Dublin), Steven Humblet (LUCA School of Arts), Chris Balaschak (Flagler College), Annarita Teodosio (University of Salerno), Cecile Laly (Université Paris I), Mónica Pacheco (University College London), Douglas Klahr (University of Texas), Johanna M. Blokker (Bamberg University), Philip Goldswain (University of Western Australia).

The Snow Walker-Margaret K. Wetterer 2018-01-01 One morning in March 1888, twelve-year-old Milton Daub awoke to find the world buried in snow. The blizzard was like nothing Milton and his neighbors in the Bronx had ever seen. No one dared go out into the storm. No one, that is, except Milton. He and his father made a pair of snowshoes from barrel hoops and old roller skates. Then Milton stepped bravely into the storm to buy milk for his family. Soon he was buying supplies for everyone in the area. His neighbors declared him a hero. The Blizzard of 1888 set records in the Northeast that are still unbroken. It forced whole cities to shut down for days. But Milton didn't let the snow stop him from helping neighbors in need. His true story is both an exciting adventure and a heartwarming glimpse of old New York.

Introduction to Coding Theory-Jurgen Bierbrauer 2016-10-14 This book is designed to be usable as a textbook for an undergraduate course or for an advanced graduate course in coding theory as well as a reference for researchers in discrete mathematics, engineering and theoretical computer science. This second edition has three parts: an elementary introduction to coding, theory and applications of codes, and algebraic curves. The latter part presents a brief introduction to the theory of algebraic curves and its most important applications to coding theory.

Teaching to Exceed the English Language Arts Common Core State Standards-Richard Beach 2015-12-07 Timely, thoughtful, and comprehensive, this text directly supports pre-service and in-service teachers in developing curriculum and instruction that both addresses and exceeds the requirements of the Common Core State Standards. Adopting a critical inquiry approach, it demonstrates how the Standards' highest and best intentions for student success can be implemented from a critical, culturally relevant perspective firmly grounded in current literacy learning theory and research. It provides specific examples of teachers using the critical inquiry curriculum framework of identifying problems and issues, adopting alternative perspectives, and entertaining change in their classrooms to illustrate how the Standards can not only be addressed but also surpassed through engaging instruction. The Second Edition provides new material on adopting a critical inquiry approach to enhance student engagement and critical thinking planning instruction to effectively implement the CCSS in the classroom fostering critical response to literary and informational texts using YA literature and literature by authors of color integrating drama activities into literature and speaking/listening instruction teaching informational, explanatory, argumentative, and narrative writing working with ELL students to address the language Standards using digital tools and apps to respond to and create digital texts employing formative assessment to provide supportive feedback preparing students for the PARCC and Smarter Balanced assessments using the book's wiki site <http://englishccss.pbworks.com> for further resources

Jogging Round Majorca-Gordon West 2011-03-22 In the 1920s, Gordon West and his wife decided they wanted to go somewhere unexplored and unspoiled, right off the beaten tourist route.They settled on the little-known island of Majorca. Travelling via Paris and Barcelona, they finally boarded the small white steamboat which was to take them to the idyllic Bay of Palma, and there they began their exploration of the enchanting island, sometimes in hair-raising motor rides round steep cliffs and on unmade roads, sometimes by mule, and more often on foot.They lodged in simple hotels, small houses, and once in a monastery, and everywhere they observed the rich pageantry of a people whose customs, gentle manners, and generous hospitality made Majorca a unique and fascinating place.

Using Children's Literature Across the Curriculum-Catherine M. O'Callaghan 2011 Catherine M. O'Callaghan, Patricia A. Antonacci, Lucy P. Murphy, Florence D. Musiello, and Eugene Wolfson "Using Children's Literature

Across the Curriculum: A Handbook of Instructional Strategies" This resource uniquely offers preservice and inservice teachers templates for using quality children's literature to implement six themes across grades K-8. The themes are based on national curriculum standards and text sets are carefully selected to facilitate discussion, analysis, and problem solving across the grades. "Using Children s Literature Across the Curriculum, "provides teachers with a guide to using multilayered texts to facilitate students attainment of critical literacy. It is designed to be a supplemental guide for teachers in designing literacy instruction. The instructional sequence includes collaborative inquiry activities across the curriculum to extend each theme to math, science, technology and social studies. Teachers are shown how to incorporate family literacy with a component entitled Home School Connections and to differentiate instruction for individual learners with a section entitled On Your Own Activities . The theme concludes with a critical literacy activity that applies the content knowledge of the theme with collaborative inquiry. "I m excited to have this tool to share with the teachers in our program ..." "I had been given this as a first year teacher, I would have been thrilled. It s wonderful all encompassing."" - Susan T. Weakland, Pathways Educational Program, Curriculum Coordinator, Moultrie, GA "Highly recommended!" - Dr. Gail Singleton Taylor, Old Dominion University, Darden College of Education, Norfolk, VA ""A useful reference for teachers (new and experienced) to use to see how interdisciplinary work can be accomplished. It provides good examples, activities, and references that would provide a successful first experience for teachers working" "with thematic studies."" - Lisa Grundstrom, Bloomington Public Schools, K-2 Teacher, Bloomington, MN "

God, Locke, and Liberty-Joseph Loconte 2014-02-27 "I no sooner perceived myself in the world," wrote English philosopher John Locke, "than I found myself in a storm." The storm of which Locke spoke was the maelstrom of religious fanaticism and intolerance that was tearing apart the social fabric of European society. His response was A Letter Concerning Toleration (1689), arguably the most important defense of religious freedom in the Western tradition. In God, Locke, and Liberty: The Struggle for Religious Freedom in the West, historian Joseph Loconte offers a groundbreaking study of Locke's Letter, challenging the notion that decisive arguments for freedom of conscience appeared only after the onset of the secular Enlightenment. Loconte argues that Locke's vision of a tolerant and pluralistic society was based on a radical reinterpretation of the life and teachings of Jesus. In this, Locke drew great strength from an earlier religious reform movement, namely, the Christian humanist tradition. Like no thinker before him, Locke forged an alliance between liberal political theory and a gospel of divine mercy. God, Locke, and Liberty suggests how a better understanding of Locke's political theology could calm the storms of religious violence that once again threaten international peace and security. An Empty Death-Laura Wilson 2011-03-15 From the award-winning author of The Innocent Spy comes the next book in this exceptional series set in WWII London Summer, 1944. After almost five years of conflict, London's inhabitants are exhausted. War-weary DI Ted Stratton is no exception, but he cannot help being drawn in by his latest case. Called on to investigate when a doctor is found dead in Fitzrovia's Middlesex Hospital, Stratton soon realizes that someone involved is not who they appear to be. Someone has discarded their own identity, and that someone is on a killing spree. Meanwhile Jenny, Ted's wife, who is working at the local recovery center, is also running on fumes. When a bombed-out woman shows up, declaring that the man claiming to be her husband is an imposter, Jenny blames the woman's confusion on shock. The reality, however, is much stranger and far more dangerous... Ultimately, for both Stratton and Jenny perhaps there is only one thing they can really trust: their fear. And for one of them, that fear may prove to be all too real. An Empty Death is a thoroughly riveting thriller. Zodiac Station-Tom Harper 2015-05-26 For fans of Dan Brown and Michael Crichton—an eerie, evocative thriller set in the unforgiving Arctic from the author of The Orpheus Descent. Deep in the Arctic, the US Coast Guard icebreaker Terra Nova batters its way through the frozen sea. A gaunt figure skis out of the fog on the pack ice. He says his name is Thomas Anderson, and that he's the lone survivors of a terrible accident at the research outpost Zodiac Station, located on the ice-bound island of Utgard. Ten days earlier, he'd arrived at Zodiac Station looking to resurrect a career destroyed by scientific scandal. But things quickly went wrong when the man who hired him, brilliant biochemist Martin Hagger, turned up dead, at the bottom of a crevasse. The base commander insisted he fell. But footprints in the snow told a much different story. As Anderson tells a tale of sabotage, suspicion, and paranoia, the mystery only deepens. When other survivors are discovered and their stories cast doubt on Anderson's reliability, it seems the grim fate of the scientists at Zodiac Station may involve human greed, jealousy, oil company trickery, Russian espionage, genetic experimentation, and global warming. But the truth is something no one on the Terra Nova could have imagined. A fast-paced, gripping thriller that marries science and adventure, Zodiac Station is as chilling and unpredictable as the fierce Arctic landscape. Dead, White, and Blue-Carolyn Hart 2014 After two locals disappear during the height of tourist season, local mystery bookshop owners Annie and Max Darling investigate a twisted path of adultery, blackmail, and betrayal to find the culprit.

101 Brockbank Cartoons-Chris Ellis 2009-11-01 Russell Brockbank (1913-1979) was best known for his motoring, motor racing and aviation cartoons. His work was published in numerous magazines and journals, including Motor, Punch and Lilliput, and collections of his work appeared in several books, such as The Penguin Brockbank (1963), Brockbank's Grand Prix (1973) and The Best of Brockbank (1975). His association with Punch lasted over 30 years, and he was Art Editor from 1949 to 1960. He provided a weekly cartoon to Motor for over 20 years, often featuring his character 'Major Upset'. Brockbank's cartoons were characterized by a high degree of draftsmanship and he often went to great lengths to ensure that the cars and aircraft in his cartoons were as true-to-life as possible. They are also deliciously funny, so much so that many rate his as one of the top cartoonists from any genre. This book, using material provided by his daughter, would feature 100 of his best cartoons in an inexpensive, landscape-format paperback.

The Record Store of the Mind-Josh Rosenthal 2015-10-27 "Josh Rosenthal is a record man's record man. He is also a musician's record man. He is in the line of Samuel Charters and Harry Smith. In this age where we have access to everything and know the value of nothing, musicians need people like Josh to hear them when no one else can." T Bone Burnett Grammy-nominated producer and Tompkins Square label founder Josh Rosenthal presents his first book, The Record Store of the Mind. Part memoir, part "music criticism," the author ruminates over unsung musical heroes, reflects on thirty years of toil and fandom in the music business, and shamelessly lists some of the LPs in his record collection. Crackling with insightful untold stories, The Record Store of the Mind will surely delight and inspire passionate music lovers ... especially those who have spent way too many hours in record stores. Celebrating ten years in 2015, Rosenthal's San Francisco-based independent record label Tompkins Square has received seven Grammy nominations and wide acclaim for its diverse catalog of new and archival recordings.

Full Spectrum Astrology-Ajani Abdul-Khaliq 2016-09-28 When it comes to astrology, the ultimate insight requires the ultimate book-one that doesn't leave out angles, key planets, and (most importantly) how you can put them to use. Full Spectrum Astrology is such a book. Arguably one of the most comprehensive resources you will find on the subject anywhere, this book shows you how to read all of the standard areas of your chart such as relationships, money, and career...but then it gives you more, a LOT more-with down-to-earth explanations of subjects as wide ranging as the minor angles, Sabians, fixed stars, chart rotations, love "rulers" and how they affect you. Best of all, it's modern, smartly written, and even funny on occasion. It does all of this while still providing an unmatched level of thoroughness on the subject which provides increasing insight into even the strangest corners of your life with each chapter. Largely drawn from statistics done on hundreds of people and their charts, this book shines in a field traditionally mired in uncertainty...perhaps making it a true game changer.
