2012-Alexandra Bruce 2009-09-01 The expanded companion book to the #1 documentary film about 2012! The 2012 meme has evolved beyond any debates about the relevance of the Maya Long Count calendar to the lives of contemporary human beings. 2012 is about us on planet Earth at this time. December 21, 2012: will the world really change forever on this date, the end of a 5,125-year calendar last used over a thousand years ago? Certainly Hollywood would like you to think so. Indeed, a not-so-small industry has arisen around the date, hawking everything from t-shirts to teleseminars. Clearing a path between fantasy and reality, Alexandra Bruce surveys the entire 2012 landscape, asking questions such as: Is the Earth losing its Mojo? How did 2012 come to mean "The End of Time"? Did psychedelics facilitate the Maya "Cosmovision"? Should we worry about Earth Crustal Displacement? What the hell is "Planet X"? Uniquely amongst a vast array of 2012 literature, this book features interviews with the leading experts—including Graham Hancock, John Major Jenkins, Daniel Pinchbeck and many others—and insightful, detailed analysis of the broad spectrum of opinion, debate, research and myth regarding the most compelling "end times" prediction of the 21st century.

Critical Human Resource Development-Jim Stewart 2007 Focuses on organisational goals and those of other stakeholders and society at large. This book provides an insight into the potential benefits and pitfalls, expectations and concerns of advancing a critical view of HRD in practice. It is intended for lecturers, students and practitioners who are aching for a critical analysis.

Irish Opinion and the American Revolution, 1760–1783-Vincent Morley 2002-07-18 This study traces the impact of the American Revolution and of the international war it precipitated on the political outlook of each section of Irish society. Morley uses a dazzling array of sources - newspapers, pamphlets, sermons and political songs, including Irish-language documents unknown to other scholars and previously unpublished - to trace the evolving attitudes of the Anglican, Catholic and Presbyterian communities from the beginning of colonial unrest in the early 1760s until the end of hostilities in 1783. He also reassesses the influence of the American revolutionary war on such developments as Catholic relief, the removal of restrictions on Irish trade, and Britain's recognition of Irish legislative independence. Morley sheds light on the nature of Anglo-Irish patriotism and Catholic political consciousness, and reveals the extent to which the polarities of the 1790s had already emerged by the end of the American war.

Early Christian Attitudes Toward Images-Steven Bigham 2004 For all iconophiles, that is, those who accept the dogma of the Seventh Ecumenical Council, but especially the Orthodox who claim that the icon has a sacramental and mystical character, it is naturally disquieting to hear the claim that the early Christians were aniconic and iconophobic. If this claim is true, the theology and the veneration of the icon are seriously undermined. It is, therefore, natural for iconophiles to attempt to disprove the thesis according to which the early Christians had no images whatsoever (aniconic) because they believed them to be idols (iconophobic). It is equally natural for iconophiles to want to substantiate, as much as this is possible, their deep intuition that the roots of Christian iconography go back to the apostolic age. This study weakens the notion and credibility of the alleged hostility of the early Christians to non-idolatrous images, providing a more balanced evaluation of this question.

Holy Images (Routledge Revivals)-Edwyn Bevan 2014-04-08 First published in 1940, this title presents four of the Gifford Lectures in natural theology given by Edwyn Bevan in 1933: 'An Inquiry into Idolatry and Image-Worship in Ancient Paganism and Christianity'. Reference is made throughout all four lectures not only to the conventional disputes in Western Christianity, but also to the attitudes of Hebrew, Pagan, Patristic, Muslim and Eastern thinkers towards the role of symbols and symbolism in worship. In this way, a subject of perennial fascination and importance is placed in a broad historical context, and innovative lines of enquiry are developed with clarity

and insight. Holy Images offers an intriguing and easily accessible resource to students of theology, comparative religion, religious anthropology and philosophy.

Eveline-James Joyce 1990 Denis De Beaulieu, a French soldier, is made a prisoner by the Sire of De Maletroit, who believes that the soldier has compromised the Maletroit family honor.

Forecasting the Environmental Fate and Effects of Chemicals-Philip S. Rainbow 2001-05-25 Forecasting the Environmental Fate and Effects of Chemicals is the first book to address specifically the issue of forecasting in environmental toxicology and chemistry from a methodological, regulatory and practical perspective. It is becoming increasingly important for environmental toxicologists and chemists to be able to forecast the fate and effects of chemicals by using existing information to predict the future.

Providing a unique and timely opportunity for active researchers and students to obtain in a single volume the 'state of the art' in this expanding field, this text discusses how forecasts can be made by: * using ecotoxicological endpoints at different levels of biological organisation * measuring and modelling chemical fate in biotic and abiotic environments * adopting difference quantitative frameworks Written by an international team of scientists, this text will be essential reading for postgraduate and advance undergraduate students studying ecotoxicology, toxicology, chemistry and environmental statistics as well as industrial and academic research scientists in environmental toxicology, environmental chemistry and those involved in risk management.

Judith-Marko Marulić 1991 From the preeminent writer of Taiwanese nativist fiction and the leading translator of Chinese literature come these poignant accounts of everyday life in rural and small-town Taiwan. Huang is frequently cited as one of the most original and gifted storytellers in the Chinese language, and these selections reveal his genius. In "The Two Sign Painters," TV reporters ambush two young workers from the country taking a break atop a twenty-four-story building. "His Son's Big Doll" introduces the tortured soul inside a walking advertisement, and in "Xiaoqi's Cap" a dissatisfied pressure-cooker salesman is fascinated by a young schoolgirl. Huang's characters—generally the uneducated and disadvantaged who must cope with assaults on their traditionalism, hostility from their urban brethren and, of course, the debilitating effects of poverty—come to life in all their human uniqueness, free from idealization.

Endless Trip-Richard Morton-Jack 2010 'Endless Trip' is the fullest study of the 60s and 70s music scene ever published. It reviews over 3000 albums, from pop, rock, psych and prog to jazz, folk, blues and beyond.

Epiphanius of Salamis, Doctor of Iconoclasm?-Steven Bigham 2008 Epiphanius of Salamis, Doctor of Iconoclasm? Deconstruction of a Myth represents a thorough examination of the dispute over the authenticity of five relevant texts of St. Epiphanius between iconoclasts and iconophiles in the 8th/9th century and between modern scholars in the 20th century: i) The postscript of a Letter of Epiphanius to John of Jerusalem; ii) The treatise of Epiphanius ... against those who make images of Christ, the Mother of God, the Angels and the Prophets; iii) The Dogmatic Letter; iv) The Letter to Epiphanius to the Emperor Theodosius; and v) The Will of Epiphanius addressed to the members of his Church. Following a brief introduction to Epiphanius' history, literary works, theology and the dispute over the alleged iconoclastic texts (ch.1), the author provides: an English translation of the above five documents (ch. 2); an analysis of the "Byzantine Controversy," which focuses on the arguments (against authenticity) of St. John Damascene, of the Seventh Ecumenical Council of Nicaea (787), of St. Nicephorus of Constantinople and of St. Theodore the Studite (ch.3); an analysis of the modern controversy focusing especially on the debate between Karl Holl (for authenticity) and George Ostrogorsky (against authenticity), including the reactions of several scholars (ch. 4); and, finally, a critical evaluation of the arguments for authenticity, which concludes that such arguments "are sufficient to justify their rejection." Fr. Bigham has convincingly argued that Epiphanius's so-called iconophobia, a notion that is present in the popular imagination and in scholarly works for nearly a century, is only a myth ... and, therefore, "the Christian tradition has been

and remains fundamentally and essentially iconophile." This reexamination and reevaluation of the critical studies of the recent past is an excellent example of a post-modern criticism of criticism.

The Krajina Chronicle-Srdja Trifkovic 2010-01 Krajina ("borderland"), the Habsburg Military Frontier, was once the name of a string of territories which provided an essential link in the chain defending Europe from the Ottoman onslaught in the 16th and 17th centuries. For many generations the Serbian population of these regions was periodically decimated by warfare in the service of the Austrian Emperor. In 1941-1945 the Serbs were subject to a genocidal attack after the Germans put the Croatian Ustaa movement in power in Zagreb. Their resistance to this slaughter and the ensuing epic struggle is the story both of the royalist etniks and of their bitter rivals for post-war power, Communist-led Partisans. The history of the Krajina Serbs, ending in the mass exodus of 1995, is an element in the story of most of the great wars in Europe, from the Ottoman offensives after the fall of Constantinople to the last decade of the twentieth century.

My Darkest Years-James Bachner 2010-06-25 Born in Berlin in 1922, James Bachner was a German Jew during the darkest days of the Third Reich. Once a happy child in a well-to-do German family, as the years passed Bachner faced first ridicule and persecution, then imprisonment and deprivation. Attributing his survival to a combination of strength and being in the right place at the right time, Bachner's memoir is a poignant and often horrific account of Jewish struggles during the days of World War II. Beginning with his idyllic childhood, Bachner expresses the range of emotions he experienced as the Nazis transformed his homeland into a nation where he and his fellow Jews were no longer welcome. He describes the volatile political atmosphere and the fears inspired in all Germans by tales of the concentration camps. In addition, he tells of the belief many

Jews held that the West would step in and put an end to Hitler's reign. The work then details the realities of life in a concentration camp. The end of the war, Bachner's reunion with his remaining family members and his eventual relocation to America are also discussed.

From Genome to Proteome-Michael J. Dunn 2008-11-21 As research on the human, animal, plant and microbial genomes matures towards descriptive fullness, the need for understanding the proteome has clearly emerged as the next major endeavor of life sciences. Proteomics - the quantitative analysis of all proteins working in a cell at a specific time and at specific conditions - provides deep insight into the highly organized network of expression, modification and degradation of proteins. Compiled in this book are reviews and research articles which describe the recent advances and perspectives of this new field of research. The articles are grouped into the following sections: - Sample Preparation and Solubilization - Developments in Electrophoresis - Detection and Quantitation - Mass Spectrometry - Proteome Data Analysis and Management - Prokaryotes and Yeast - Biological Fluids - Eukaryotic Cells and Tissue - Oncology - Plants Proteomics is a new key for the functional analysis of living systems and of equal importance for basic as well as application oriented research.

The Devil, Heresy and Witchcraft in the Middle Ages-Alberto Ferreiro 1998 The study of heresy and heterodoxy and of belief in magic, witchcraft and the devil has in the past 25 years made significant advances in our understanding of art and iconography, ideas, mentality and belief, and ordinary life and popular imagination in the patristic and medieval periods. At the forefront of research into this aspect of medieval intellectual history has been Jeffrey B. Russell, whose numerous books and articles have opened important new paths in the field. To mark his retirement 17 established and emerging scholars from Europe and North America - historians of art, the church, religions, and ideas - have contributed papers on the many areas which Russell has influenced. Topics dealt with include elves, the Christians apocrypha, mysticism, sexuality, heresies and heresiologies, apocalyptic tracts, astrology, hell, and other Christian encounters with non-believers. These essays are offered as tribute to the deep impact that Russel has had on medieval studies. Contributors include: Alan Bernstein, Richard Emmerson, Alberto Ferreiro, Neil Forsyth, Abraham Friessen, Karen Jolly, Henry Ansgar Kelly, Richard Kieckhefer, Beverly M. Kienzle, Garry Macy, Bernard McGinn, Edward Peters, Cheryl Rigs, Larry J. Simon, Laura Smoller, Catherine B. Tkacz, and John Tolan. Methods of Mathematics Applied to Calculus, Probability, and Statistics-Richard W. Necroscope: Invaders-Brian Lumley 2011-04-01 Three great vampires--two Lords and a Lady--arrive on an unsuspecting Earth that teems with defenseless humans, easy prey for the marauding vampires. But humanity has defenders. Though the necroscope is gone, the psychically gifted men and women of E-Branch move swiftly against the vampire infestation. Jake Cutter is running for his life through the streets of Turin when he vanishes, appearing moments later inside the triply locked "Harry's room" in E-Branch's London HQ. Jake's dreams are very strange, filled with the voices of the dead--the Great majority, the Necroscope, Harry Keogh, even a dead vampire. He hears them all, but he doesn't truly understand. If Jake is the new Necroscope, he has to learn--fast!--how to control his powers and speak to the dead. E-Branch, with the reluctant Jake along for the ride, is about to go head-to-head with Malinari the Mind, a vampire Lord who psychic abilities are second to none. But the dead don't trust Jake, not like they trusted Harry. Jake's got personal revenge on his mind, and he's spending too much time talking that dead vampire. He's got to start thinking about the future--or he won't have one! At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. The Return of the Mother-Andrew Harvey 2013-08-20 Adapted from a series of lectures on the historical basis and current resurgence of the sacred feminine, given by Andrew Harvey at the California Institute of Integral Studies in Spring 1994, The Return of the Mother is a profound journey into the heart of the Divine Mother. In this comprehensive and groundbreaking work, mystical scholar Andrew Harvey unearths traces of the sacred feminine in major world religions—Hinduism, Islam (Sufism), Buddhism, Taoism, and Christianity—and in aboriginal and indigenous wisdom traditions. Harvey presents a scathing critique of the patriarchal distortions in religious history and doctrine that have obscured full knowledge of the Divine Mother, and shows how to reintegrate this vital aspect into the spiritual consciousness of humankind. The Return of the Mother offers a radical new perspective, balancing the historical overemphasis on transcendence by honoring the immanence of the divine in passionate engagement in the world. Only by cultivating a direct, respectful relationship with the transformative power of the sacred feminine can we alter our disastrous attitude of dissociation from nature, the body, sexuality, and the details of human life, and generate the energy and compassion needed to reverse the course of destruction we have set the planet—and all of life—hurtling toward. In lively question-and-answer sections, Harvey further illuminates these vital issues and takes a strong stand against our dependence on “gurus” and “masters,” proposing instead an egalitarian model of spiritual community based on intimate groups of mutually supportive guides and friends. The Return of the Mother is an eloquent and passionate call for all of us to rediscover and reclaim an authentic and empowering relationship to the divine, and recreate a sacred life-in-the-world.

The Assassination Complex-Jeremy Scahill 2016-05-01 Major revelations about the US government's drone program—bestselling author Jeremy Scahill and his colleagues at the investigative website The Intercept expose stunning new details about America's secret assassination policy. When the US government discusses drone strikes publicly, it offers assurances that such operations are a more precise alternative to troops on the ground and are authorized only when an “imminent” threat is present and there is “near certainty” that the intended target will be killed. The implicit message on drone strikes from the Obama administration has been trust, but don't verify. The online magazine The Intercept exploded this secrecy when it obtained a cache of secret slides that provide a window into the inner workings of the US military's kill/capture operations in Afghanistan, Yemen, and Somalia. Whether through the use of drones, night raids, or new platforms yet to be employed, these documents show assassination to be central to US counterterrorism policy. The classified documents reveal that Washington's fourteen-year targeted killing campaign suffers from an overreliance on flawed signals intelligence, an apparently incalculable civilian toll, and an inability to extract potentially valuable intelligence from terror suspects. This campaign, carried out by two presidents through four presidential terms, has been deliberately obscured from the public and insulated from democratic debate. The Assassination Complex allows us to understand at last the circumstances under which the US government grants itself the right to sentence individuals to death without the established checks and balances of arrest, trial, and appeal. The book will include original contributions from Glenn Greenwald and Edward Snowden. Between East and West-Anne Applebaum 2017-06-13 In the summer and fall of 1991, Anne Applebaum, Pulitzer Prize-winning author of Gulag and Iron Curtain, took a three month road trip through the freshly independent borderlands of Eastern Europe. She deftly weaves the harrowing history of

the region and captures the effects of political upheaval on a personal level. An extraordinary journey into the past and present of the lands east of Poland and west of Russia—an area defined throughout its history by colliding empires. Traveling from the former Soviet naval center of Kaliningrad on the Baltic to the Black Sea port of Odessa, Anne Applebaum encounters a rich range of competing cultures, religions, and national aspirations. In reasserting their heritage, the inhabitants of the borderlands attempt to build a future grounded in their fractured ancestral legacies. In the process, neighbors unearth old conflicts, devote themselves to recovering lost culture, and piece together competing legends to create a new tradition. Rich in surprising encounters and vivid characters, Between East and West brilliantly illuminates the soul of the borderlands and the shaping power of the past.

At Home-Gore Vidal 2018-08-22 Written by “America's finest essayist” (New Statesman), At Home brings together twenty-four essays on subjects ranging from Henry James to Nancy Reagan, Oscar Wilde to Oliver North, Hollywood to Mongolia. From the leaders and lunacies of contemporary America to reminiscences of his own childhood, whether answering his own critics or excoriating the current state of literature, Gore Vidal is, as always, elegant, incisive, and brilliant. “As provocative and perceptive a social and literary critic as America has today.” -Newsweek “[Vidal's] pieces grab one's attention and refuse to let go. At once forthright and mendacious, smart and demented, they're written...with panache, vigor and a caustic, often perverse wit...As a stylist he's almost a national treasure.” -Wall Street Journal “I can't think of any writer more certain to have exactly the right opinion on absolutely everything.” -Washington Post Book World Alien Woman-Ximena Gallardo C. 2004-05-21 This text examines the construction of sex and gender in the four science-fiction films comprising the Alien saga (starring Sigourney Weaver). It will be useful to researchers and teachers in film, mass communication, women's studies, gender studies and genre studies.

Between Human and Machine-David A. Mindell 2004-10-15 "In contextualizing the theory of cybernetics, Mindell gives engineering back forgotten parts of its history, and shows how important historical circumstances are to technological change." -- Networker

The Pueblo Revolt of 1680-Andrew L. Knaut 2015-01-26 In August 1680 the Pueblo Indians of northern New Mexico arose in fury to slay their Spanish colonial overlords and drive any survivors from the land. Andrew Knaut explores eight decades of New Mexican history leading up to the revolt, explaining how the newcomers had disrupted Pueblo life in far-reaching ways - they commandeered the Indians' food stores, exposed the Pueblos to new diseases, interrupted long-established trading relationships, and sparked increasing raids by surrounding Athapaskan nomads. The Pueblo Indians' violent success stemmed from an almost unprecedented unity of disparate factions and sophistication of planning in secrecy. When Spanish forces retook the colony in the 1690s, freedom proved short-lived. But the revolt stands as a vitally important yet neglected historical landmark: the only significant reversal of European expansion by Native American people in the New World.

That's Not English-Erin Moore 2015-03-24 An expat's witty and insightful exploration of English and American cultural differences through the lens of language that will leave readers gobsmacked In That's Not English, the seemingly superficial differences between British and American English open the door to a deeper exploration of a historic and fascinating cultural divide. In each of the thirty chapters, Erin Moore explains a different word we use that says more about us than we think. For example, "Quite" exposes the tension between English reserve and American enthusiasm; in "Moreish," she addresses our snacking habits. In "Partner," she examines marriage equality; in "Pull," the theme is dating and sex; "Cheers" is about drinking; and "Knackered" covers how we raise our kids. The result is a cultural history in miniature and an expatriate's survival guide. American by birth, Moore is a former book editor who specialized in spotting British books—including Eats, Shoots & Leaves—for the US market. She's spent the last seven years living in England with her Anglo American husband and a small daughter with an English accent. That's Not English is the perfect companion for modern Anglophiles and the ten million British and American travelers who visit one another's countries each year.
