Volume 19, Tome IV: Kierkegaard Bibliography-Peter Šajda 2017-03-16 The long tradition of Kierkegaard studies has made it impossible for individual scholars to have a complete overview of the vast field of Kierkegaard research. The large and ever increasing number of publications on Kierkegaard in the languages of the world can be simply bewildering even for experienced scholars. The present work constitutes a systematic bibliography which aims to help students and researchers navigate the seemingly endless mass of publications. The volume is divided into two large sections. Part I, which covers Tomes I-V, is dedicated to individual bibliographies organized according to specific language. This includes extensive bibliographies of works on Kierkegaard in some 41 different languages. Part II, which covers Tomes VI-VII, is dedicated to shorter, individual bibliographies organized according to specific figures who are in some way relevant for Kierkegaard. The goal has been to create the most exhaustive bibliography of Kierkegaard literature possible, and thus the bibliography is not limited to any specific time period but instead spans the entire history of Kierkegaard studies.
Volume 8, Tome II: Kierkegaard's International Reception - Southern, Central and Eastern Europe-Jon Stewart 2016-12-14 Although Kierkegaard's reception was initially more or less limited to Scandinavia, it has for a long time now been a highly international affair. As his writings were translated into different languages his reputation spread, and he became read more and more by people increasingly distant from his native Denmark. While in Scandinavia, the attack on the Church in the last years of his life became something of a cause célèbre, later, many different aspects of his work became the object of serious scholarly investigation well beyond the original northern borders. As his reputation grew, he was co-opted by a number of different philosophical and religious movements in different contexts throughout the world. The three tomes of this volume attempt to record the history of this reception according to national and linguistic categories. Tome II covers the reception of Kierkegaard in Southern, Central and Eastern Europe. The first set of articles, under the rubric 'Southern Europe', covers Portugal, Spain and Italy. A number of common features were shared in these countries' reception of Kierkegaard, including a Catholic cultural context and a debt to the French reception. The next rubric covers the rather heterogeneous group of countries designated here as 'Central Europe': Hungary, the Czech Republic, Slovakia and Poland. These countries are loosely bound in a cultural sense by their former affiliation with the Habsburg Empire and in a religious sense by their shared Catholicism. Finally, the Orthodox countries of 'Eastern Europe' are represented with articles on Russia, Bulgaria, Serbia and Montenegro, Macedonia and Romania.
Proceedings-Asiatic Society of Bengal 1897 Rivista Di Astronomia E Scienze Affini- 1908 Italian Banking and Financial Law: Regulating Activities-D. Siclari 2016-01-12 Italian banks and financial intermediaries are subject to extensive regulation which has evolved throughout the country's history. There has also been much change to the country's financial regulation in recent years in response to the globalization of markets and intermediaries. The Italian administrative and regulatory system is often perceived as a major obstacle to economic productivity, and some causes of this ineffectiveness are deeply rooted and date back to the Italian unification and juridical culture. This book provides an overview of the Italian regulation of banking and financial activities, and tracks the evolution of its 'economic Constitution' and market trends. It explores a range of topics within Italian regulation, including the regulation of banking activities, investment services and collective portfolio management. It examines in detail the relationship between intermediaries and customers, public offerings of financial instruments and products, public takeover bids, listed companies, insurance and reinsurance business. Among other current topics the authors discuss the link between investor protection and confidence in the financial markets; and assess the financial markets as a source of financing for companies.
L'invention de la décentralisation-Marie-Laure Legay 2009 Partout en Europe, les noblesses ont affirmé leur vocation politique dans le cadre de leurs "pays" (ou provinces) primitifs (comtés, duchés, principautés). L'absorption de ces "pays" dans des ensembles plus vastes n'a pas aboli les structures de représentation (assemblées d'états, diètes, cortès) où les corps nobiliaires se sont souvent épanouis. Etudes de leur rôle et de leurs stratégies.

Revue Semestrielle Des Publications Mathématiques- 1921 Muslims and Christians in Norman Sicily-Dr Alexander Metcalfe 2014-01-21 The social and linguistic history of medieval Sicily is both intriguing and complex. Before the Muslim invasion of 827, the islanders spoke dialects of either Greek or Latin or both. On the arrival of the Normans around 1060 Arabic was the dominant language, but by 1250 Sicily was an almost exclusively Christian island, with Romance dialects in evidence everywhere. Of particular importance to the development of Sicily was the formative period of Norman rule (1061 1194), when most of the key transitions from an Arabic-speaking Muslim island to a 'Latin'-speaking Christian one were made. This work sets out the evidence for those changes and provides an authoritative approach that re-defines the conventional thinking on the subject.
